Note: Some games and platforms do not support the use of controllers, so the gamepad may not work natively. In these cases, use the Keylinker app (Android) to map the controls and play titles without native controller support.

2-in-1 multiplatform Bluetooth gaming gamepad featuring Dual Bluetooth 5.0 + USB connectivity and a universal holder for smartphones up to 7". Ergonomic design optimized for extended gaming sessions on mobile, console, and PC. Equipped with analog joysticks and Hall Effect magnetic trigger sensors, delivering high precision, extended durability, and drift-free performance.

Dual haptic vibration system and turbo function for fast command execution. Includes 2 programmable macro buttons, a rechargeable battery with up to 10 hours of playtime, and advanced customization support via Android app. Full multiplatform compatibility with PS4, Switch, Switch 2, PC, Android, iOS 13.0+ and cloud gaming services.
